

# You pull ... We push, consulting assistance

Finally, the answers to everything!

*Remember when you were young and your parents knew everything? Sometimes you asked questions, other times they offered suggestions. Now that you're an adult with a consulting enterprise, it feels like you're supposed to have the answers to everything. Sometimes though, it can be hard to see the forest for the trees. Wouldn't it be nice to have a source of answers and ideas you could tap?*

Our **You pull ... We push consulting assistance** provides consulting firms and individual consultants with a unique way to tackle problems, realise opportunities, obtain perspective and implement solutions.

## "You Pull"

When you identify an issue or a new potential market or niche, and you want help to resolve the problem or realise the opportunity, you "pull" us in. Depending on the situation, we provide proven 'off the shelf' answers or develop a tailor-made solution for you. Our expertise extends across the client services lifecycle from business development, sales and marketing to implementation, delivery and assessment.

## "We Push"

Every month we'll contact you with ideas and suggestions designed to make your business more efficient, more effective, more innovative. These solutions will range across the client services lifecycle. Any suggestions you are interested in pursuing, you can "pull" from us.

## How it works

- You contact us at any time to "pull" our assistance.
- We "push" suggestions to you once a month.
